# UX UI Designer | Web Developer

## Work Experience

📍 Iraq, Baghdad

Yaman Al-Khair  
UX/UI Design & Web  
Development

- I worked on designing and developing websites and applications, ensuring they are fully responsive and deliver an optimal user experience across all devices.
- I utilized Figma and Photoshop, while for front-end development, I employed React and Tailwind.

📍 Remote

Freelancing  
UX/UI Design | Mobile & Website  
Developer

- I used GitHub REST APIs for data management and GitHub repositories for storing and fetching data.
- I also use Capacitor technique to make applications for iOS and Android systems.

## Education & Courses

Bachelor Degree in Medical Engineering  
2020 - 2024 | Al-Mansour University College

React.js Course  
PedroTech

JavaScript Algorithms and Data Structure, Responsive Web Design, Front End Development Libraries, React State Management, Intermediate JavaScript Course and APIs  
FreeCodeCamp

## Tools

Figma  
UI Design, prototyping
