Critical Thinking
Problem Solving
Willing to learn
Mathematical Skills
Time Management
Attention to Detail

About Me

I'm a Front-End Developer with more than two years of experience in the field. I've been a programmer for 5 years, and have been learning Front-End Development for the last couple of years. I'm passionate about both front-end and back-end development and eager to continue expanding my skills.

Education

Medical Devices Engineering

Al-Mansour University College   2021 - 2024

Courses & Tutorials

- JavaScript Algorithms and Data Structures
- Responsive Web Design
- Front End Development Libraries
- React State Management – Intermediate JavaScript Course
- APIs
  FreeCodeCamp
- React.Js Course
  PedroTech (Youtube channel)
- Learn JavaScript
  Elzero Web School (Youtube channel)

Experience

I've worked with many companies to build websites.

- Yaman Al-Khair (2 Months)
  They were getting the clients and my job was to design and develop the website. I used to use Figma with Photoshop for designing and React with Tailwind for the Client-Side, and Github APIs for the Backend-Side. I'm still working with them as a Freelancer.
- Baghdad Star
- Baghdad Beacon
- White Tiger Drink
- CodeGx
- Portfolio
- Github
